PROFESSIONAL SUMMARY

BCA student with hands-on experience across full-stack development, ML dataset curation & QA, data pipeline engineering, and cross-functional coordination. Built and shipped multiple end-to-end applications spanning AI/voice systems, cloud platforms, and IoT, alongside leadership roles in sports, community outreach, and student innovation groups. Seeking opportunities to apply strong technical and organisational skills in a fast-paced, collaborative environment.

WORK EXPERIENCE & INTERNSHIPS

Softora — Apr 2025 – Jun 2025

Software Development Intern

Delivered assigned development tasks across the project stack, writing clean and maintainable code while adhering to sprint timelines and coding standards.

Debugged and resolved issues in existing modules, improving application stability and contributing to release readiness.

Instawork (Part-Time) — Mar 2025 – May 2025

Data Quality Analyst Intern — Robotics Training Data

Reviewed up to 10 hours of headcam video footage daily at 4x playback speed, applying structured QA guidelines to flag manual/procedural errors in human task execution — maintaining a 90%+ accuracy rate across a 3-month engagement.

PROJECTS

VoxMind — Voice-Authenticated Multilingual AI Assistant — Ongoing

Python, FastAPI, React, Gemini & Groq APIs, Whisper/Google STT, ESP32-CAM IoT

Full-stack voice assistant with secure login and multilingual speech pipeline, extended into VoxMind Glasses — an assistive wearable for visually impaired users combining an ultrasonic distance sensor for obstacle detection with a camera, mic, and push-button trigger; on button press, captures the scene and returns a detailed spoken description via Gemini/Groq vision-language inference. Re-architected core inference to an Ollama-first, Groq-fallback design for reliability, with live web-grounding for current-events queries.

God's View — Universe Simulator — 2026

Three.js/WebGL, WebXR, NASA & ISS APIs, n8n

Framework-free Three.js sim of the universe's evolution — Big Bang to a live-tracked solar system to a complete visual tour till the observable universe — with real-time NASA/ISS data, an n8n AI scene assistant, and full WebXR/VR headset support.

FloodSense AI — Flood Monitoring & Alert System — Feb 2026

C#/.NET 8, WPF, ML.NET, SQL Server (EF Core), Ollama LLM

Built a flood monitoring and alert system using ML.NET predictive models and the Open-Meteo API, triggering automated SMS/email alerts for at-risk zones.

FinTrack — Installable PWA for expense tracking and shared savings, with RLS-enforced data isolation — August 2026

SQL-based spending intelligence, a PDF statement importer, and SMS auto-tracking via a companion Android app that keeps personal messages off-network.

Legal AI Research Assistant — Vakeel AI — Aug 2026

Python, FastAPI, React, RAG, Hybrid Retrieval (BM25 + Vector + Reranking), LLM Evaluation

Built a citation-verified legal research assistant for Indian law using hybrid retrieval and closed-set citation verification, reducing hallucinated legal citations from 40% to 0% on a held-out test set, benchmarked against the AILA legal-IR dataset.

SKILLS

Technical: Html, CSS, Python, Java, C++, C#, JavaScript/TypeScript, SQL, React, Tailwind CSS, Three.js/WebGL, FastAPI, PostgreSQL (RLS, triggers, stored functions), MongoDB, Kotlin, PWA, Git

AI/ML & Cloud: RAG, Hybrid Search (BM25 + Vector Embeddings), LLM Evaluation & Benchmarking, ML Dataset Curation & QA, Claude/Groq/Gemini/Ollama LLM Integration, scikit-learn, STT/TTS Pipelines, AWS (DynamoDB), Azure, Firebase (Auth, Firestore, Hosting), Supabase, Deno, Vercel, Docker, IoT

Soft Skills: Team Leadership, Event Management, Cross-Functional Collaboration, Time Management, Adaptability, Social Media Management

Certifications: Artificial Intelligence Ethics Certification — Infosys Springboard (2026); AI Fundamentals 2026: Safe AI Skills for Work — Infosys Springboard (2026); AWS Academy Cloud Foundations — AWS (2026); Mental Health and Well-Being — SWAYAM (NPTEL) (2025)

CO-CURRICULAR & LEADERSHIP

Sports Coordinator, Dept. of Computer Science — Christ University — Head (Jun 2024–Jun 2025) — Planned and executed inter- and intra-departmental sports events end-to-end (scheduling, venue booking, registrations), leading a team of student volunteers.

Centre for Service Learning, Dept. of Computer Science — Coordinator (Jun 2024–Jun 2025) — Organised community outreach activities including NGO visits and peer-teaching sessions, connecting academic learning with real-world impact.

AI Guild, Dept. of Computer Science — Core Member (Jun 2025–Mar 2026) — Participated in AI-focused workshops and collaborative projects, contributing to a culture of innovation within the department.

SDG Cell | Managing Committee | Ozark Productions — PR, Events, Prop Design, Branding (2024–Present) — Held concurrent roles contributing to seamless execution of academic, cultural, and SDG-aligned events.

EDUCATION

CHRIST (Deemed to be University),

Bachelor of Computer Applications (BCA) — 7.55CGPA, Jul 2024 – May 2027

St. Joseph's PU College, Bengaluru

Karnataka State Board (PUC) — 83% 2024

The New Cambridge High School, Bengaluru

Karnataka State Board (SSLC) — 77% 2022
